26. Overview of the entity’s material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:

¹. Ongoing; significant progress made and needs to continue

S. No.	Material issue Identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Environment: Climate Change	Risk (R) & Opportunity (O)	Risk: <ul style="list-style-type: none">Extreme weather events due to climate change pose threats to human safety and can cause strategic, physical, and transitional risks to our business operations.Rising temperatures and natural hazards could increase operational costs and affect income due to health concerns, energy consumption, and HVAC use. Opportunity: <ul style="list-style-type: none">As enterprises strive to minimize their carbon footprint and meet the increasing demand for eco-friendly products and services, new business opportunities arise. By offering technology-driven solutions, LTIMindtree can assist these companies in achieving their sustainability goals.To proactively identify and leverage climate change opportunities, all our centers have climate-controlled environments and customized business continuity/crisis management plans to minimize disruptions.	<p>LTIMindtree is dedicated to minimizing its climate impact and becoming a climate-resilient organization through an exhaustive strategy that includes energy efficiency, renewable energy, water stewardship, and climate risk assessment.</p> <p>Climate Risk Management:</p> <ul style="list-style-type: none">LTIMindtree assessed vulnerability risks using Climate Scenario Analysis, and Biodiversity Assessment for its Indian and overseas campuses.Our aim is to boost renewable energy use to meet demand without exacerbating climate change.Strong business continuity plans are in place and tested periodically, to handle disruptions and protect employees, partners, and stakeholders. <p>Emissions Reduction:</p> <ul style="list-style-type: none">Committed to managing and mitigating climate change risks through a thoughtful approach. Efforts have been continuously made to phase out ozone-depleting pollutants and reduce carbon emissions by improving energy efficiency and transitioning to renewable energy sources and reducing waste generation and aiming to recycle ~100% of waste. <p>Energy Efficiency:</p> <ul style="list-style-type: none">To reduce the carbon footprint, all owned facilities adhere to green building standards and aim for LEED IGBC Platinum certification.Targeted initiatives to reduce specific and absolute energy consumption.Integrated third-party wheeling energy and in-house solar power systems across facilities.Initiatives include installing energy-efficient equipment, optimizing UPS and HVAC units, implementation of effective monitoring system and operational controls and leveraging renewable resources.	<p>Negative:</p> <ul style="list-style-type: none">Failure to address climate change could disrupt LTIMindtree’s operations including infrastructural vulnerabilities and equipment damage.These risks carry two main financial burdens: higher operational costs due to climate change impacts and missed opportunities, potentially leading to revenue loss in the business environment.Additionally, compliance with environmental regulations can further escalate operating expenses. <p>Positive:</p> <ul style="list-style-type: none">We are diligently implementing a range of initiatives across our facilities to reduce greenhouse gas emissions and energy consumption.We seize the opportunity to boost our organization’s resilience by leveraging our expertise in sustainability, low-carbon transition, and digital/MT.By proactively adopting frameworks like Taskforce on Nature-related Financial Disclosures (TNFD), we position ourselves ahead of compliance regulations, ensuring we are not just compliant but also industry leaders. This forward-thinking strategy allows us to anticipate changes, mitigate risks, and capitalize on emerging trends, ultimately contributing to our clients’ and organization’s growth.

7. Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure)

Our ESG roadmap firmly establishes our position as one of the leading pioneers in the Sustainability domain.

Our initiatives to conserve water and minimize waste are making significant strides - we are currently 2.8x water positive with 58% reduction in per-capita water consumption. Four offices in Bengaluru and two in Mumbai are certified as 'Zero Waste to Landfill'. Advancing towards achieving Net-Zero by 2040 by reducing scope 1 emissions by 74%, scope 2 emissions by 76%, transitioning to renewable energy sources with 60.33% share and implementing energy-efficient practices across our operations.

Continuous learning and development are emphasized, preparing our associates for emerging technologies. We prioritize creating an inclusive and diverse workplace by increasing the representation of women in our workforce and leadership roles, striving to be an employer of choice for LGBTQ+ individuals and veterans. This is carried out through programs and policies that promote diversity and inclusion, ensuring everyone feels valued and respected.

Through our various social impact initiatives, we strive to make a positive difference in education, environment, empowerment, and healthcare, thereby contributing to the holistic well-being of the communities we serve. With the support of our esteemed NGO partners, we aimed to reach the population across 19 blocks, including 16 aspirational blocks, throughout India and impacted 7,48,915 lives positively.

By promoting supplier sustainability and diversity by engagement, we are building an ecosystem that supports sustainable growth and development.

We uphold the highest standards of corporate governance and ethical conduct. Our governance practices and sustainability disclosures emphasize transparency, accountability, and integrity.

Our genuine commitment to sustainability has garnered accolades. In Businessworld's 'India's Most Sustainable Companies' Top 50 listing for 2024, we attained rank 13 across all sectors and rank 5 in the IT & Communications sector. We are also proud to announce that LTIMindtree has received three prestigious awards for our sustainability report for FY 2023-24 from the League of American Communications Professionals (LACP) and ESG Transparency Award, highlighting our leadership in sustainability reporting and best practices. Achievements like these underscores our leadership in responsible business practices.

As we look ahead, I am confident that our collective dedication, innovation, and collaborative spirit will lead us to a sustainable, equitable, and prosperous future.

Yes. In 'Supplier Meet Program' we provide exhaustive training and raise awareness among our suppliers. This initiative aims to enhance collaboration and ensure compliance with our standards. We have connected with 80 esteemed vendors from various verticals for this FY 24-25. Through our capacity building programs, we have collaborated with our suppliers, offering training and awareness initiatives on business responsibility, and insights into our sustainability efforts, and seeking their alignment with our goals. We are committed to educating our value chain partners and integrating our ESG initiatives by providing opportunities for mutual support.

2. Does the entity have processes in place to avoid/manage conflict of interests involving members of the Board? (Yes/No) If Yes, provide details of the same.

Yes, LTIMindtree is steadfast in its commitment to ensuring ethical standards and preventing conflicts of interest within its Board, with several measures. BoDs must disclose their interests upon joining and promptly update any changes throughout the fiscal year, ensuring transparency and accountability in governance. Independent Directors are required to uphold their ability to perform their duties objectively and independently, as required by Regulation 25(8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015, and must make independent declarations as per Section 149(7) of the Companies Act, 2013, and Regulation 16(1)(b) of the SEBI Regulations 2015. These declarations emphasize their autonomy and impartiality. The disclosures pertaining to interest of directors in other companies/body corporates are also sought out on a quarterly basis, ensuring there is minimum/no conflict of interest of board members vis-à-vis operations of the Company.

The Board conducts an annual evaluation which reaffirms the independence status of the independent directors, and its thought on mechanisms that could help increase board performance, accountability of the management, and increased transparency, thereby leading to strategic organization. Additionally, LTIMindtree has a policy on Related Party Transactions, which safeguards against conflicts arising from directors' external engagements or business activities. Independent Directors of the Audit Committee accord their prior approval to all related transactions. Supporting these efforts, LTIMindtree has implemented the following governance policies

- Code of Fair Practices & Disclosures: <https://www.ltimindtree.com/wp-content/uploads/2023/10/Amendment-to-the-Fair-Disclosure-Code-FY2024.pdf?pdf=download>

2. a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes, LTIMindtree is committed to sustainable sourcing, integrating ESG factors into our vendor onboarding process via the Supplier 360 platform. Suppliers are onboarded once they accept our Supplier Code of Conduct, which requires them to comply with laws and adhere to sustainability-related operations, including human rights, environmental impact, health and safety standards, and labor conditions. To assess their compliance, prospective suppliers must complete a supply chain questionnaire during the onboarding process. We actively engage with our suppliers through our supplier meet program, where we discuss policy matters and sustainability initiatives to ensure alignment with our ethical standards and best practices.

b. If yes, what percentage of inputs were sourced sustainably?

In FY 24-25, our sustainability sourcing percentage stood at 49.14%, which is the percentage in terms of the cost allocated towards sourcing sustainable inputs.

3. Describe the processes in place to safely reclaim your products for reusing, recycling, and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

As an IT services company focused on technology consulting and digital solutions, we do not manufacture physical products. So, this question is not applicable to us. Nonetheless, we are committed to reducing waste and have implemented an effective waste management system for collection, segregation, storage, and disposal. We ensure the safe disposal and recycling of various types of waste through regulatory-compliant vendors.

- Plastic Waste: All non-biodegradable plastic waste is sent to designated vendors for recycling or reuse.
- E-Waste: Per the E-waste (Management) Rules 2016, electronic waste is disposed of within 180 days to registered recyclers authorized by the State Pollution Control Boards, with recycling certificates obtained post-disposal. Employees can buy back their laptops after five years to minimize e-waste.
- Hazardous Waste: Disposed of through SPCB-authorized vendors, with manifest confirmations submitted to the authority post-disposal.
- Battery Waste: Complied with regulations and handled by SPCB-approved vendors for safe disposal.
- Other Waste: Biodegradable food waste is composted onsite, producing manure for campus landscaping. Excess manure is distributed among employees.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity’s activities (Yes/No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Extended Producer Responsibility (EPR) is not applicable as the company falls within the IT/ITES sector.

3. Accessibility of workplaces

Are the premises/offices of the entity accessible to differently abled employees, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

Our facilities and offices are designed to be accessible for employees with disabilities, in accordance with the Rights of Persons with Disabilities Act, 2016. We acknowledge that individuals with qualifying disabilities, pregnancy, medical conditions, and other circumstances may require reasonable workplace accommodations to succeed.

Our office spaces are designed to be inclusive and accessible, offering height-adjustable workstations, wheelchair parking areas, access ramps at entrances, washrooms with grab bars, emergency alarms for support, tactile flooring, etc. We regularly assess our facilities to evaluate the overall accessibility of key amenities, implementing appropriate measures to ensure the full inclusion of people with disabilities.

4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

Yes, LTIMindtree is firmly committed to being an equal opportunity employer and adheres to the provisions of the Rights of Persons with Disabilities Act, 2016 ("Act"), both in letter and spirit. We strongly advocate equal opportunities for individuals with disabilities and proactively identify roles suitable for their employment. We provide specific opportunities for identified positions to ensure their meaningful engagement.

We cultivate a safe, accessible, and inclusive work environment, offering tailored resources and accommodation to support employees with disabilities. Additionally, we extend our support to employees who acquire disabilities during their tenure with us, empowering them to achieve their full potential and contribute effectively to the organization. Our Equal Opportunity Policy is available at <https://www.ltimindtree.com/wp-content/uploads/2022/11/Equal-Opportunity-Policy-.pdf?pdf=download>.

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/No). If yes, the coverage of such system?

Yes, LTIMindtree has implemented an Occupational Health and Safety Management System in compliance with the international ISO 45001:2018 standards.

94% of our sites are certified against the ISO 45001:2018 standards, while for the remaining locations, we have established our own internal Environment, Health, and Safety (EHS) Management System. Our EHS policy, applicable to all locations, demonstrates our commitment to managing workplace health and safety risks by promoting a culture of security among employees and partners. We also prioritize the provision of support services to enhance the physical, mental, and emotional well-being of our employees.

Our premises are equipped with safety features such as firefighting/alarm systems, smoke detectors, and water leak detection mechanisms. Raising awareness and providing training through educational materials and sessions on health and safety topics are essential components of our workplace health and safety management.

All our campuses in India are equipped with well-established occupational health centers. The Hazard Identification and Risk Assessment (HIRA) processes are integral to our approach to addressing occupational risks and hazards. This includes the implementation of various control measures and processes to effectively mitigate and eliminate risks. Additionally, we have implemented an Incident Reporting and Investigation System to ensure that any workplace incidents are promptly addressed, and corrective actions are taken to prevent recurrence.

Moreover, doctors and physiotherapists have provided virtual consultations to employees and their families through our telemedicine portal. We also conduct regular health and wellness programs, including fitness challenges, mental health workshops, and ergonomic assessments, to promote a holistic approach to employee well-being. By maintaining a robust OHS management system and continuously improving our practices, we aim to create a safe and healthy work environment for all our employees.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Our health and safety initiatives are grounded in the careful assessment of facility risks, especially within office premises, through the implementation of a robust Hazard Identification & Risk Assessment (HIRA) framework. As an IT services organization, our risk spectrum primarily pertains to service-related aspects such as ergonomics, utilities management, and employee commute safety. In line with ISO 45001:2018 standards, HIRA systematically evaluates work-related hazards and risks across routine and non-routine activities at all locations. Risks are assessed based on frequency, severity, and

potential impact on personnel. Changes in processes, equipment upgrades, or service refinements prompt timely HIRA evaluations and the development of risk mitigation strategies. Our approach involves:

- Deconstruction of tasks to identify potential hazards
- Identification and evaluation of existing measures
- Ensuring compliance with legal and regulatory requirements
- Assessing the severity and likelihood of incidents
- Determining the risk level based on assessments
- Implementation of additional control measures where necessary

Experience from prior projects and current operations further reinforces the effectiveness of our assessments, ensuring exhaustive coverage and compliance with safety standards.

c. Whether you have processes for workers to report work-related hazards and to remove themselves from such risks. (Y/N)

Yes, we have processes in place that enable employees to report work-related hazards and remove themselves from potential risks, reinforcing our commitment to EHS standards. Various mechanisms, including the iSupport portal for issue logging, complaint registers at office entrances, and green cards in building lobbies, facilitate the reporting of hazards, risks, and workplace-related incidents by employees, support staff, and other stakeholders. Regular awareness sessions, competitions, and briefings are conducted for the support staff to ensure familiarity with these mechanisms, highlighting their role in identifying and mitigating hazards promptly. Furthermore, EHS training programs, aligned with our EHS policy, ensure safe and healthy working conditions. Awareness regarding incident reporting is continuously strengthened through induction programs, mandatory OHS training, and communication campaigns. Employees and stakeholders also have access to an internal admin helpdesk and a dedicated corporate HSE email-id to report health and safety issues. Action owners are sensitized to take corrective actions within defined timelines, ensuring effective mitigation and hazard elimination. These mechanisms enable us to proactively address workplace hazards and uphold a safe, secure, and environmentally responsible work environment.

d. Do the employees/worker of the entity have access to non-occupational medical and healthcare services? (Yes/No)

Yes, all permanent employees and their families, including spouses and children, are provided with access to non-occupational medical and healthcare services. Coverage of Parents & in-laws is optional and employees who are opting for it have to pay separately. Agreements with subcontractor vendors mandate the provision of similar services to all subcontractors working at LTIMindtree locations across India. In overseas locations, these services are provided in compliance with the respective country's regulations.

Our organization is committed to create a healthy work environment through our Total Wellbeing program. This fosters overall well-being and productivity of employees and ensures business continuity. Collaborations with healthcare providers like 'Connect & Heal' offer a range of services to employees and their dependents, including preventive health checkups, virtual doctor consultations, emotional counselling via the Employee Assistance Program, dietary consultations, lab tests, and access to an online pharmacy. These resources are accessible through the well-being portal and app. Additionally, the organization conducts an annual health checkup campaign, complemented by reminder emails, to promote the overall health of its workforce.

To improve accessibility further, the company provides additional wellness benefits through partnerships with local healthcare networks. Medical centres located at multiple sites offer non-occupational healthcare services for both employees and contractors. Company-sponsored medical insurance extends coverage to employees and their dependents. To encourage an active lifestyle, fitness initiatives such as on-site gymnasiums, yoga sessions, and fitness challenges are also available.

Mental health is another key priority, with various initiatives in place to foster a supportive environment. These include counselling services, self-help resources, and emotional and leadership coaching to ensure a psychologically safe workplace.

Additionally, first aid centers at designated facilities and ambulance services for medical emergencies ensure immediate assistance and timely hospital transportation when needed.

A lot of emphasis is given to safeguard the 'vision health' of our employees wherein we offer reimbursement for spectacles. Similarly, the 'dental health' program is also prioritized wherein the expense for root canal treatments and tooth extraction is reimbursed.

11. Details of safety related incidents, in the following format:

Safety Incident/Number	Category	FY 2024-25	FY 2023-24
Lost Time Injury Frequency Rate (LTIFR) (per one million-person hours worked)	Employees	0	0.005
Total recordable work-related injuries	Employees	0	10
No. of fatalities	Employees	0	0
High consequence work-related injury or ill-health (excluding fatalities)	Employees	0	0

Note: Number of first aid cases - 11

12. Describe the measures taken by the entity to ensure a safe and healthy work place.

We are committed to ensuring safe workplaces by preventing injuries and illnesses. We continuously work towards eliminating hazards and reducing occupational health and safety risks. Our health and safety management system is ISO 45001:2018-certified, and we regularly conduct risk assessments that include evaluations of ergonomic and mental health concerns to identify potential workplace hazards. These risk assessments are complemented by regular workplace inspections to support our efforts in mitigating risks. For every recorded incident or near-miss, we conduct investigations to determine the root cause and implement corrective actions to prevent recurrence.

The ‘Green Card’ initiative enables individuals without system access to report incidents or unsafe conditions via cards placed in building lobbies, managed by security personnel in close coordination with the in-house EHS team.

We have introduced the ‘Safety Work Permit Tool,’ a digital system to manage work tasks, identify risks, and implement safety measures to maintain safe working conditions. This system replaces manual paperwork, enhances reporting accuracy, and facilitates real-time updates and monitoring. It helps ensure compliance with safety regulations and maintain risk management protocols, reducing the likelihood of accidents or legal issues.

In addition, we have implemented various measures to mitigate significant occupational health and safety impacts, including:

- The provision and maintenance of fire detection alarms and suppression systems.
- Regular site reviews, inspections, and audits to assess safety preparedness.
- Biannual mock drills for fire and annual mock drills for medical and other identified emergencies.
- Deployment of ergonomically designed furniture and low-radiation computer monitors.
- Digital monitoring of drinking water and indoor air quality.
- Regular occupational health and safety training sessions.
- Initiatives such as health check-ups, wellness camps, and awareness sessions across all facilities in India.
- We have established first aid centers in many of our campuses in India. Our telemedicine portal remains active, enabling employees to consult doctors at our occupational health centers in India online. Ambulance services are available round the clock at all our locations in India.
- As an IT/ITES company, common risks include ergonomic issues, Musculoskeletal Disorders (MSDs), and emotional well-being concerns related to the workplace, utility operations, and commuting. We have various initiatives, interventions, virtual engagement sessions, process controls, and ergonomics programs to address these risks.

13. Number of Complaints on the following made by employees:

	FY 2024-25			FY 2023-24

Working Conditions	Nil	Nil	Nil	Nil	Nil	Nil
Health & Safety	Nil	Nil	Nil	Nil	Nil	Nil

LTIMindtree consistently prioritizes the health, safety, and well-being of our associates by establishing, implementing, maintaining, and continually improving our processes and practices to ensure a healthy and safe working environment for everyone. There were no complaints by our associates concerning working conditions or Health & Safety in FY 24- 25 and FY 23-24.

14. Assessments for the year:

	% of your plants and offices that were assessed (By entity or statutory authorities or third parties)
Health and safety practices	94% of LTIMindtree facilities in India locations are certified by third party for ISO 45001:2018 Note: excluding satellite offices
Working Conditions	100%. Working conditions of all facilities are assessed by in-house EHS team in line with ISO 45001:2018.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks/concerns arising from assessments of health & safety practices and working conditions.

No major incidents occurred in fiscal year 2024-25, and no corrective actions were needed regarding working conditions. To support employee well-being, we have established first aid centers at many of our India facilities, providing quick access to medical care for minor injuries and illnesses, which helps reduce downtime and facilitates a swift return to work.

Leadership Indicators

1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) ?

Yes, all our employees are entitled to life insurance or a compensatory package in the event of death, depending on their role. We provide a wide range of health benefits that extend to employees’ families including group term life insurance, personal accident insurance, and retirement provisions like provident fund, gratuity, and more.

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

We ensure vendor compliance through third-party audits, supplemented by an internal team that reviews compliance regularly. These audits conducted quarterly with the support of external auditors verify that statutory dues are correctly deducted and deposited by vendors. Relevant statutory provisions, including the proper payment and deduction of dues, are embedded in contracts with value chain partners, ensuring mutual adherence to compliance obligations. Additionally, the company monitors compliance with labor laws across various operating jurisdictions and regularly conducts audits of both core and subcontracted vendors.

3. Provide the number of employees having suffered high consequence work- related injury/ill-health/ fatalities (as reported in Q11 of Essential Indicators above), who have been rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment.

Health and safety practices	0%
Working Conditions	0% *

* 100% of new suppliers are screened for human rights violations by the Risk intelligence tool during the supplier on-boarding stage.

LTIMindtree expects that all value chain partners comply with applicable health, safety, and working condition regulations. All the suppliers must adhere to our Supplier Code of Conduct, sustainable practices, and corporate governance standards. The company enforces a zero-tolerance policy for human rights violations and ensures healthy working environments.

6. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from assessments of health and safety practices and working conditions of value chain partners.

None. No negative impact related to human rights has been identified in new suppliers screening.

Principle 4: Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

LTIMindtree emphasizes stakeholder identification and engagement, prioritizing key segments based on their impact on the organization and vice versa. This engagement encompasses a wide range of stakeholders to deepen our understanding of their needs and expectations, enabling the development of sustainable strategies across short, medium, and long-term horizons. Additionally, it allows us to effectively manage risks and capitalize on opportunities within our business operations.

Through consultation with the management, the company has recognized key stakeholders, including customers, employees, investors, suppliers, industry bodies like NASSCOM and CII, governments, etc.

Our engagement methods vary from structured approaches like surveys and account statements to unstructured interactions such as town halls and one-on-one meetings. These engagements are scheduled based on mutual convenience and necessity, occurring as needed, periodically (monthly/quarterly/annually), or through ongoing channels like our website and social media platforms.

To ensure ongoing dialogue with stakeholders, we have established a diverse range of forums that collect their concerns, providing valuable inputs for our policies, strategies, actions, and materiality assessments. Continuously evolving these platforms allows us to stay attuned to stakeholder expectations, serving as a vital source of feedback for LTIMindtree. We periodically revamp and refine these engagement platforms in response to evolving stakeholder needs and business requirements.

Leadership Indicators

- 1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.**

As the highest governing body, the Board is tasked with implementing and overseeing business responsibility policies. It ensures effective governance through its various specialized committees: Audit Committee, Nomination and Remuneration Committee, Stakeholders' Relationship Committee, Risk Management Committee, Corporate Social Responsibility Committee, and Strategic Investment Committee.

These committees convene regularly to review their respective focus areas and consider stakeholder feedback and concerns. The CSR Committee, established by the Board, plays a pivotal role in monitoring and reviewing sustainability and ESG issues, including climate change and biodiversity.

The internal CSR team identifies projects that align with key focus areas such as Education, Empowerment, Health & Nutrition, and Environment. These projects, along with budget recommendations, are reviewed and endorsed by the CSR Committee before being presented to the Board. The CSR Committee meets on a quarterly basis to deliberate and make decisions on CSR initiatives. The Chairperson of the CSR Committee updates the Board of Directors during board meetings, ensuring transparency and accountability in CSR efforts.

The Board of Directors carefully examines the issues and risks that impact the Company's long-term performance, while also approving strategic matters and initiatives. Board members engage in meaningful discussions about the Company's ESG initiatives, encouraging the senior management to lead efforts that go beyond regulatory requirements.

The CFO submits his annual confirmation certificate to the CSR Committee and the Board of Directors, confirming that the CSR funds disbursed have been utilized for the purposes and in a manner as approved.
- 2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes/No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.**

Yes, we actively consult with stakeholders to identify and manage Environmental and Social topics. Stakeholders are identified through materiality assessments and engagement exercises.

 - Customer feedback is integrated into decision-making, strategy, and the development of green solutions to meet their environmental needs.
 - We utilize pulse polls, feedback platforms, and surveys to identify employee pain points and improve processes and policies.
 - Feedback from suppliers helps improve collaboration.
 - An internal portal, such as the iSupport/Green Card system, is used to register employee concerns.
 - We consult with PCB authorities to meet legal requirements.
 - Engaging with partners helps us understand the feasibility and benefits of initiatives before implementation.
 - Regular Safety Committee meetings address Occupational Health and Safety (OHS) topics, discuss measures to bridge gaps, and include participants from all departments as well as medical center staff such as nurses and doctors.
 - As part of our CSR charter, we adopt a systematic approach to ensure effective stakeholder identification, communications, and engagement with NGOs and beneficiaries based on geography, focus area, and impact. We organize consultation sessions, focused meetings, and progress reviews where stakeholders share insights and concerns that help us gather valuable feedback. This is then synthesized with NGO partners and incorporated for appropriate actions in project design, implementation, and impact measurement.
- 3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/marginalized stakeholder groups.**

We have engaged with NGOs to support vulnerable and marginalized communities, providing us with invaluable insights and direct connections. Our collaborative efforts begin with thorough needs assessments conducted alongside our NGO partners

to pinpoint the unique challenges these communities face, ensuring our interventions are precisely targeted. We develop customized CSR programs that address specific needs, focusing on areas such as education, skill development, healthcare, livelihood improvement, and empowerment.

By actively involving vulnerable groups in the planning, execution, and evaluation of our projects, we ensure their voices are heard, creating a sense of ownership and empowerment. To create a sustainable impact, we prioritize capacity-building through training, workshops, and mentorship initiatives, equipping these communities with the skills, knowledge, and resources needed to enhance their socioeconomic conditions.

Our partnerships extend to governmental bodies, civil society organizations, and other stakeholders, allowing us to pool resources and expertise for maximum impact. Mechanisms are in place to monitor and evaluate the effectiveness of our interventions, with regular assessments and feedback loops to track progress, identify areas for improvement, and ensure lasting positive outcomes.

4. Do you have a focal point (Individual/Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business?

Our Code of Conduct (COC) Committee ensures compliance with ethical standards, while the Whistleblowing Investigation Committee addresses reported violations and takes appropriate actions to resolve them effectively.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

We are committed to upholding human rights principles at all operational levels and instilling these values in our employees. We encourage employees to report any suspected unethical practices or violations directly at whistleblower@ltimindtree.com. We have implemented the Prevention of Sexual Harassment (POSH) Policy to ensure adherence to applicable laws and promote a culture of respect and inclusivity.

Our reporting procedures extend globally, with specific provisions for the UK region. Our employees have access to various forums to raise concerns and our Grievance Redressal Policy encourages employees to report issues which will be addressed promptly, fairly, and impartially by dedicated teams. All reported concerns are managed with sensitivity and undergo an investigation process. Appropriate actions, with timely and thorough resolutions including disciplinary measures, are taken where necessary, and seek regulatory assistance as needed. These mechanisms ensure a fair and responsive approach to addressing grievances.

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

LTIMindtree is committed to creating a safe and inclusive work environment, free from discrimination, harassment, and retaliation. Our policies, including the Whistleblower and POSH policies, are designed to prevent such incidents and ensure the protection of associates who report concerns. An Internal Committee (IC) has been established to oversee employee behavior regarding harassment and has the authority to issue interim orders to safeguard complainants and witnesses from any form of victimization.

To maintain fairness and confidentiality, LTIMindtree ensures the protection of all parties involved in whistleblowing or discrimination cases, including the respondent, whistleblower, and witnesses, in accordance with legal and investigative requirements. We maintain a culture of non-vindictiveness, guaranteeing that whistleblowers will not face retaliation for raising protected concerns unless they are deemed abusive or false by the Whistleblowing Investigation Committee (WBIC).

If any whistleblower feels that their concern has not been adequately addressed or if they face any form of victimization, they can escalate the matter to the WBIC for further investigation and action. We prioritize confidentiality and the safety of complainants by limiting access to case-related information to authorized individuals, such as the IC and WBIC. All parties involved in the process are obligated to adhere to strict confidentiality measures, and any retaliatory actions are subject to disciplinary proceedings.

LTIMindtree ensures that no associate faces retaliation for reporting concerns related to discrimination, harassment, or any integrity issues. Our non-retaliation policy extends to protecting individuals who make reports in good faith or cooperate in investigations. Disciplinary measures are applied in cases where retaliation is identified. All concerns regarding discrimination or harassment are handled with the utmost confidentiality, and strict actions are taken against individuals engaging in retaliatory behavior.

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes, human rights requirements form part of our business agreements and contracts. LTIMindtree integrates human rights clauses into all Purchase Orders and Master Service Agreements (MSAs) to ensure alignment with the principles of the UN Global Compact (UNGC). These clauses are communicated to suppliers and partners through our Supplier Code of Conduct, which emphasizes compliance with regulatory requirements and upholding integrity. Suppliers must adhere to the human rights standards specified in the Supplier Code of Conduct. In exceptional cases, vendors may propose their own code, which will be reviewed and reconciled by our legal team. Also, we utilize a risk intelligence tool to conduct due diligence of all active suppliers. This automated risk intelligence system supports our global third-party due diligence efforts by screening sanctions, regulatory compliance, financial irregularities, human right violations and adverse media coverage. It also enables continuously monitoring third parties for risks related to anti-money laundering, bribery, corruption, and modern slavery, ensuring that LTIMindtree avoids associations with partners that may pose a reputational risk.

10. Assessments for the year:

	% Of your plants and offices that were assessed (By entity or statutory authorities or third parties)
Child Labor	0%
Forced/involuntary Labor	0%
Sexual harassment	100%*
Discrimination at workplace	0%
Wages	0%
Others- please specify	0%

LTIMindtree internally monitors compliance with all relevant laws and policies pertaining to these aspects at 100% of its offices.

11. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 10 above.

*Gap analysis was conducted to ensure 100% awareness coverage on POSH for support level staff and this was addressed by carrying out POSH sessions through vernacular trainings.

Leadership Indicators

1. Details of a business process being modified/introduced as a result of addressing human rights grievances/complaints.

Human rights are a fundamental part of our governance framework, and our Human Rights Policy embodies our commitment to treating all employees with dignity and respect while maintaining a zero-tolerance approach toward any form of abuse or violation.

As an annual business participant to the United Nations Global Compact (UNGC), we adhere to the principles outlined in the UN Universal Declaration of Human Rights. Although we have received no human rights complaints, we proactively review and update our policies and processes to prevent any potential issues.

To ensure compliance across our value chain, we require vendors and partners to strictly follow our Code of Conduct, Supplier Code of Conduct and POSH policies. These ongoing efforts help us strengthen our human rights practices and maintain a solid track record.
2. Details of the scope and coverage of any Human rights due diligence conducted.

Our human resources department drives the implementation of human rights policies and processes to ensure adherence across the organization. The Code of Conduct (CoC) underpins our commitment to ethical practices, applying to the Board of Directors, senior management, and all employees. Through annual affirmations covering aspects like anti-trust behavior, data security, and human rights, we cultivate a culture of transparency and accountability. Our Whistleblower Policy ensures

confidentiality and robust identity protection for both permanent and contractual employees, along with efficient mechanisms to address grievances. Vendors and service providers are required to comply with our Supplier Code of Conduct, covering human rights.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes, our offices and facilities are fully accessible to individuals with disabilities, in accordance with the requirements of the Rights of Persons with Disabilities Act, 2016. We prioritize accessibility by incorporating features such as wheelchair parking spaces, adjustable workstations, ramps at entrances, specially designed washrooms with grab bars and tactile flooring. Additionally, we have installed panic buttons in restrooms designated for Persons with Disabilities (PwD) across our facilities in India to enable quick communication with security in case of an emergency.

4. Details on assessment of value chain partners

	% Of your value chain partners (by value of business done with such partners) that were assessed
Sexual harassment	Our value chain partners were assessed according to various aspects, including ESG criteria, Modern Slavery compliance, Information Security & Privacy, Business Continuity Planning (BCP) etc. The assessment was conducted for Tier A vendors, which included 7 vendors.
Discrimination at workplace	
Child Labor	100% of new suppliers are screened for human rights violations by the Risk intelligence tool during the supplier on-boarding stage.
Forced Labor/Involuntary Labor	The Company's Supplier Code of Conduct and the corresponding contractual clauses in vendor agreements address key ethical standards. These principles ensure the provision of a safe, healthy, and respectful work environment, where all workers are paid in accordance with, or above, the legal minimum wage requirements. They emphasize respect for human rights, prohibit discrimination, and uphold a zero-tolerance policy for child labour, forced labour, slavery, human trafficking, and any form of harassment. Additionally, activities that may compromise safety or security are prohibited. All suppliers are required to sign the Code of Conduct as a condition of engagement and are expected to fully comply with its guidelines.
Wages	
Others- please specify	

5. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 4 above.

No negative impact related to human rights has been identified in new suppliers screening. For FY24-25, assessments are currently In-progress for other suppliers. As of now no significant risks or concerns were identified during this assessment. Therefore, no specific corrective actions were required. However, we continue to maintain our proactive measures to ensure compliance and promptly address any potential issues.

Principle 6: Businesses should respect and make efforts to protect and restore the environment

Essential Indicators

1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:

Parameter	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
From renewable sources		
Total electricity consumption (A)	137,362 GJ	86,446 GJ
Total fuel consumption (B)	0	0
Energy consumption through other sources (C)	0	0
Total energy consumed from renewable sources (A+B+C)	137,362 GJ	86,446 GJ
From non-renewable sources		
Total electricity consumption (D)	90,316 GJ	108,496 GJ
Total fuel consumption (E)	14,305 GJ	3,712 GJ
Energy consumption through other sources (F)	0	0
Total energy consumed from non-renewable sources (D+E+F)	104,621 GJ	112,208 GJ
Total energy consumed (A+B+C+D+E+F)	241,984 GJ	198,654 GJ

Parameter	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Energy intensity per rupee of turnover (Total energy consumed/Revenue from operations)	6.37 GJ/crore	5.59 GJ/crore
Energy intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total energy consumed/Revenue from operations adjusted for PPP)	14.26 GJ/million USD	12.80 GJ/million USD
Energy intensity in terms of physical output	2.86 GJ/ employee	2.55 GJ/ employee
Energy intensity (optional) – the relevant metric may be selected by the entity	0.030 GJ/sq ft	0.0553 GJ/sq ft

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development), and GHG protocol. The same has been independently assured by TUV India Private Limited, a third-party agency via a reasonable level of assurance based on Global Reporting Initiative (GRI) Sustainability Reporting, AA1000AS Assurance Standard from Accountability, International Standard on Assurance Engagements 3000 (ISAE 3000 Revised) from the International Federation of Accountants, and international assurance best practices.

2. Does the entity have any sites/facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

The Perform, Achieve, and Trade (PAT) scheme is a regulatory instrument that aims to reduce specific energy consumption in energy intensive industries. As LTIMindtree is an IT Service Company, this question holds no relevance to our scope of services.

3. Provide details of the following disclosures related to water, in the following format

Parameter	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Water withdrawal by source (in kiloliters)

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, LTIMindtree is dedicated to achieving Zero Liquid Discharge (ZLD) across its owned campuses with advanced Sewage Treatment Plants (STPs), ensuring that treated water is efficiently reused for landscaping, HVAC systems, gardening, and restroom flushing. At leased sites, arrangements with builders and local authorities allow treated water to be discharged into drainage networks in compliance with regulations.

The Company implements water management practices, including rainwater harvesting and conservation measures, to optimize water usage and promote sustainable water management. This approach reduces reliance on freshwater resources and minimizes pollution associated with wastewater discharge.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Please specify unit	FY 2024-25	FY 2023-24
No _x	Kg	52	94
SO _x	Kg	14	21

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) and its intensity in the following format:

Parameter	Unit	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	1,542	1,663
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	18,239	22,937
Total Scope 1 and Scope 2 emission intensity per rupee of turnover (Total Scope 1 and Scope 2 GHG emissions/Revenue from operations)	Metric tonnes of CO ₂ equivalent per crore of turnover	0.52	0.69
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total Scope 1 and Scope 2 GHG emissions/Revenue from operations adjusted for PPP)	Metric tonnes of CO ₂ equivalent per million USD	1.17	1.58
Total Scope 1 and Scope 2 emission intensity in terms of physical output	Metric tonnes of CO ₂ equivalent per employee	0.23	0.32
Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity	Metric tonnes of CO ₂ equivalent per square feet	0.0025	0.0069

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development), and GHG protocol. 8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

We are dedicated to reducing greenhouse gas (GHG) emissions, focusing primarily on Scope 1 and 2 emissions, where we have direct control. Additionally, we address Scope 3 emissions, particularly by optimizing employee commute. We aim to enhance energy efficiency through integrated measures across all our sites and offices.

To achieve our sustainability goals, we have implemented several strategic initiatives:

Scope 1 Emissions Reduction:

Initiative	Benefits
Installation of emission control devices in DGs with a capacity of 125KVA and more	This resulted in 83% reduction in particulate matter and an 87% reduction in carbon monoxide, without causing any adverse effects on the genset. The emissions now meet the standard set by the authorities (i.e. less than 70%).
Electrification of cooking appliances	Transitioned from using 2,916 kg of LPG to electric stoves fueled by renewable electricity.

Scope 2 Emissions Reduction:

Initiative	Benefits
Phasing out R22 refrigerant and switching to low-GWP refrigerants	Energy savings: 699,546 kWh
Installation of rooftop solar panel	Energy savings: 146,000 kWh
Installation of solar LED streetlights	Energy savings: 5,184 kWh
Installation of Daylight & Motion sensor	Energy savings: 3,696 kWh
Installation of VAVs & VFDs	Energy savings: 803,088 kWh
Efficient Temperature Control: Using Centralized AHU and Split AC for BMS Room	Energy savings: 23,463 kWh
HVAC Optimization	Energy savings: 14,147.04 kWh
Optimization of UPS	Energy savings: 60,312 kWh
Renewable energy for internal power requirement	We opted green tariff for Hyderabad facilities (Skyview and Raheja) and Obtained REC certificates for Mumbai Mahape and Bengaluru East campus facility. 1,28,37,407.91 kWh as on Jan 2025 sourced this FY from renewable source.

Scope 3 Emissions Reduction:

Initiative	Benefits
Installation of PadCare System to recycle sanitary waste	58% reduction in carbon emissions compared to landfilling and a 68% reduction compared to incineration. Through this initiative, we will be able to recycle around 4 MT of waste per annum.
Fleet Transition to EV & CNG vehicles	52% of our commute vehicles are powered by Compressed Natural Gas (CNG-45%) and electric energy (EV-7%) which reduced carbon emission compared to the vehicles run by fossil fuel.

9. Provide details related to waste management by the entity, in the following format:

For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes)		
Category of waste		
(i) Incineration	33.36	29.23
(ii) Landfilling	17.61	28.26
(iii) Other disposal operations	0.00	0.00
Total	50.97	57.49

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development), and GHG protocol. The same has been independently assured by TUV India Private Limited, a third-party agency via a reasonable level of assurance based on Global Reporting Initiative (GRI) Sustainability Reporting, AA1000AS Assurance Standard from Accountability, International Standard on Assurance Engagements 3000 (ISAE 3000 Revised) from the International Federation of Accountants, and international assurance best practices.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

As an IT services and consulting organization, LTIMindtree does not engage in manufacturing physical products. Thus, the use of hazardous and toxic chemicals in processes or manufacturing is not applicable.

The waste generated from our building operations includes e-waste, battery waste, biomedical waste, hazardous waste (such as used oil and oil-soaked cotton), inorganic waste (like paper and stationery waste), organic waste (including food and garden waste), packaging waste (such as cardboard and Styrofoam), construction and demolition (C&D) waste, sanitary waste and other types (metals, mixed solid waste, plastic, and glass waste). We prioritize the use of eco-friendly chemicals, such as SmartDose Diversey, to minimize plastic waste and emissions from transportation, and prioritize opting eco-friendly materials like the usage of biodegradable cups made from agricultural waste.

We ensure the proper disposal of hazardous waste through authorized vendors, with manifest confirmations submitted to regulatory authorities.

- Plastic Waste: All non-biodegradable plastic waste is sent to designated vendors for recycling or reuse.
- E-Waste: Per the E-waste (Management) Rules 2016, electronic waste is disposed of within 180 days to registered recyclers authorized by the State Pollution Control Boards, with recycling certificates obtained post-disposal. Employees can buy back their laptops after five years to minimize e-waste.
- Hazardous Waste: Disposed of through SPCB-authorized vendors, with manifest confirmations submitted to the authority post-disposal.
- Battery Waste: Complied with regulations and handled by SPCB-approved vendors for safe disposal.

- **Other Waste:** Biodegradable food waste is composted onsite, producing manure for campus landscaping. Excess manure is distributed among employees.

Our approach emphasizes waste reduction, reuse, and recycling, and cultivating an environmentally conscious culture across our facilities.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals/clearances are required, please specify details in the following format:

S. No.	Location of operations/offices	Type of Operations	Whether the conditions of environmental approval/clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
Not Applicable*			

*LTIMindtree does not have operations/offices in/around ecologically sensitive areas where environmental approvals/clearances are required. All our campuses are built on government-approved land in industrial zones, with no impact on biodiversity.

12. Details of Environmental Impact Assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No)	Relevant Web link
Nil					

13. Is the entity compliant with the applicable environmental law/regulations/guidelines in India such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

Yes, all LTIMindtree offices follow the applicable environmental law/regulations/guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment Protection Act, and rules thereunder. No fine/penalty/action was initiated against the entity under any of the applicable environmental laws/regulation/guidelines.

S. No.	Specify the law/regulation/guidelines which was not complied with	Provide details of the non-compliance	Any fines/penalties/action taken by Regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
Nil				

Leadership Indicators

1. Water withdrawal, consumption and discharge in areas of water stress (in kilo liters)

For each facility/plant located in areas of water stress, provide the following information

- i. **Name of the area:** Pan India locations
- ii. **Nature of Operations:** Both leased and owned locations for IT Consulting and Services
- iii. **Water withdrawal, consumption and discharge in the following format:**

Parameter	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Water withdrawal by source (in kiloliters)		
(i) Surface water	1	6,420
(ii) Groundwater	7,587	4,264
(iii) Third party water	348,566	314,079
(iv) Seawater/desalinated water	0	0
(v) Others (Rainwater + Water generated from Moisture in Air)	8,700	8,961
Total volume of water withdrawal (in kiloliters)	364,854	333,724

Parameter	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)

Total water discharged (in kiloliters)	3,021	2,219

2. Please provide details of total scope 3 emissions and its intensity in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	46,149	40,773
Total Scope 3 emissions per rupee of turnover	Metric tonnes of CO ₂ equivalent per crore of turnover	1.21	1.15
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity	Metric tonnes of CO ₂ equivalent per square feet	0.0058	0.0114

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development), and GHG protocol. The same has been independently assured by TUV India Private Limited, a third-party agency via a reasonable level of assurance based on Global Reporting Initiative (GRI) Sustainability Reporting, AA1000AS Assurance Standard from Accountability, International Standard on Assurance Engagements 3000 (ISAE 3000 Revised) from the International Federation of Accountants, and international assurance best practices.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not applicable. LTIMindtree exclusively operates within government-approved industrial zones, ensuring that its facilities are situated away from ecologically sensitive areas. Analysis through various assessment tools such as the World Wildlife Fund’s Biodiversity Risk Filter (WWF-BRF) and MOEFCC Wetland Portal indicates that all the LTIMindtree campuses are distantly located from any of the protected areas including marine coral reefs, eco-sensitive zones, reserve/protected forest, national parks, wetlands, sanctuaries, and areas of high biodiversity values, etc.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions/effluent discharge/waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Energy Conservation programs	1. Phase out of R22 refrigerant 2. Installation of solar LED Streetlights 3. Installation of daylight & motion sensors 4. Installation of VAVs & VFDs • Efficient Temperature Control: Using Centralized AHU and Split AC for BMS Room 5. HVAC Optimization • Optimization of UPS	Energy Savings: 1,609.43 MWh per annum
2	Emission reduction Programs	1. Installation of rooftop solar panel 2. Electrification of cooking appliances 3. Renewable energy for internal power requirement through green tariff 4. Transition of employee commute fleet to CNG & EV based.	CO ₂ e reduction: 11,806.58 MT per annum
3	Water reduction program	1. Installation of water aerators 2. Installation of digital water meter 3. Installation of waterless urinal	Water savings: 10,374.36 KL per annum
4	Waste Reduction program	1. Installation of PadCare System to recycle sanitary waste	58% reduction in carbon emissions compared to landfilling and a 68% reduction compared to incineration. Through this initiative we will be able to recycle around 4 MT of waste per annum.

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes, LTIMindtree has a comprehensive Business Continuity and Disaster Management Plan through its ISO22301:2019 certified Business Continuity Management System (BCMS). Our Business Continuity and Disaster Management plans are designed to protect the environment and support restoration after disruptions. To achieve this, the BCMS integrates business functions, accounts, and geographies within the Enterprise Risk Management Framework, covering risk assessments, mitigation plans, and emergency preparedness. Top management, including the Board of Directors and the Risk Management Committee (RMC), actively supports and oversees the program. The system uses automated tools, regular testing, and awareness initiatives to ensure business continuity and effective incident management, prioritizing employee safety and operational resilience.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

None. At LTIMindtree, we are dedicated to maintaining sustainable sourcing practices, which are enforced through our Supplier Code of Conduct (SCoC). This includes thorough evaluations of both potential and current supply chain partners, focusing on key aspects such as environmental regulations, health and safety standards, labor conditions, and compliance with recognized sustainability criteria. As part of the initial empanelment process, all new vendors and service providers are required to sign the SCoC.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

100% of new suppliers are screened for environmental impacts/violations by the Risk intelligence tool during the supplier on-boarding stage.

8. How many Green Credits have been generated or procured:

a. By the listed entity: Nil

b. By the top ten (in terms of value of purchases and sales, respectively) value chain partners:

According to SEBI's circular issued on March 28, 2025, Green Credits has been identified as a new non-mandatory leadership indicator. LTIMindtree is committed to incorporate this in VCP disclosures from FY 2025-26 onwards, in line with SEBI's guidelines.

Principle 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In INR)
Nil						

Rehabilitation and Resettlement is not a focus area for our CSR projects. We work in the areas of Education, Environment, Empowerment and Health and Nutrition and are geared towards holistic development of the communities we serve.
3. Describe the mechanisms to receive and redress grievances of the community.

We prioritize regular and additional field visits, overseen by our CSR project leaders and company executives, to address community grievances. These visits facilitate direct interaction with beneficiaries, enabling us to gain a thorough understanding of their concerns and feedback. Informed by insights from our discussions with NGO partners, we implement proactive corrective and preventive actions as needed. Additionally, we have created a Grievance Redressal Committee (GRC) which is outlined in the contract signed with NGO partner. The GRC also meets once any grievance is raised/identified in the community & works to resolve same. Our dedication to delivering sustainable impact within the communities we serve propels our efforts to create positive change and meet the needs of those we support.
4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Directly sourced from MSMEs/small producers	9%	8%
Directly from within India	44%	30%
- MSME	20%	28%
- Non MSME	80%	72%
Sourced outside India	56%	70%
5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees employed on a permanent or non-permanent/on contract basis) in the following locations, as % of total wage cost.

Location	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Rural	Nil	Nil
Semi-urban	0.21%	Nil
Urban	8.38%	4.80%
Metropolitan	91.41%	95.20%

Leadership Indicators

1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Details of negative social impact identified	Corrective action taken
None	Not applicable as there were no negative social impacts

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

S. No.	State	Aspirational District	Amount spent (In INR)
1	Madhya Pradesh	Vijaypur-Sheopur	2,50,00,000
2	Madhya Pradesh	Buxwaha, Chhatarpur	2,50,00,000
3	Rajasthan	Gangapur City, Sawai Madhopur	2,50,00,000
4	Odisha	Gudvella, Balangir	2,20,00,000

16	Karnataka	Joida, Uttar Kannada	2,23,20,000

3. a. Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized/vulnerable groups? (Yes/No)

Yes, we prioritize quality procurement from marginalized groups by promoting diversity within our supplier base, enriching innovation, and building strong relationships. Our systems monitor spending with diverse suppliers, ensuring that MSME vendors are treated equitably while providing them with preferential payment terms.

- b. From which marginalized/vulnerable groups do you procure?

Our procurement practices prioritize marginalized and vulnerable groups, with a special focus on women and minority-owned enterprises to create positive social impact. This reflects our dedication to promoting diversity and inclusivity, including the vendors certified as MSMEs by government agencies.

- c. What percentage of total procurement (by value) does it constitute?

Total procurement spend towards marginalized/vulnerable groups accounts for 12.11%. As an IT service provider, the company primarily sources from OEM's, distributors, and local suppliers, focusing on sustainable procurement and supporting marginalized suppliers for economic opportunities in the communities where we operate.

4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:

S. No.	Intellectual Property based on traditional knowledge	Owned/Acquired (Yes/No)	Benefit shared (Yes/No)	Basis of calculating benefit share
	Not Applicable			

Our company's patents and innovations are centred around digital innovations and new age technologies. Consequently, we have not faced any adverse orders in intellectual property disputes involving traditional knowledge.

5. Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.

Name of authority	Brief of the Case	Corrective action taken
Not Applicable

Principle 9: Businesses should engage with and provide value to their customers in a responsible manner

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

At LTIMindtree, client feedback plays a vital role in driving continuous improvement and enhancing satisfaction. Any feedback or complaints received are promptly escalated to project managers, recorded in the COMPASS Issue Log, and thoroughly analyzed to develop resolution plans that address root causes and prevent recurrence. Detailed discussions with clients help us formulate actionable plans, which are carefully monitored and reviewed by senior management during governance meetings.

Feedback is gathered through mechanisms such as the Client Satisfaction Survey (CSS) tool and the annual Client Satisfaction (CSAT) survey, conducted by an independent firm. These tools assess various parameters, including execution, quality, communication, and value, with insights analyzed to implement necessary improvements and transparently communicated to clients.

Our transparent approach includes three levels of communication:

- L1 Communication: Recognizing client feedback and validating planned actions to address it.
- L2 Communication: Updating clients on the progress of improvement actions during the implementation phase.
- L3 Communication: Concluding the actions taken and highlighting the value delivered to the client.

2. Turnover of products and/services as a percentage of turnover from all products/service that carry information about:

5. Does the entity have a framework/policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

LTIMindtree consistently refines its cybersecurity policy to stay ahead of emerging threats. The policy, reviewed by the Risk Management Committee of the Board, assures its effectiveness by leveraging advanced threat detection capabilities. Our cybersecurity team ensures continuous vigilance by actively monitoring network traffic, system logs, and real-time security events. Our toolkit includes advanced Intrusion Detection Systems (IDS), Intrusion Prevention Systems (IPS), firewalls, anti-malware software, content filtering gateways, and robust data encryption protocols. Security is further bolstered with sophisticated data leakage prevention systems, 24/7 monitoring, regular vulnerability assessments, penetration testing, and stringent endpoint security controls, all working together to provide a consistent and high level of security across corporate networks and remote work environments. We maintain an up-to-date database of known threat signatures to swiftly identify and mitigate risks.

Our data privacy framework, led by the Data Privacy Office and under the guidance of the Data Protection Officer, ensures compliance with key global regulations such as GDPR, CCPA, PIPEDA, APP, and PDPA. Key stakeholders, including the COO, CPO, CIO, GC, CFO, and CISO, are essential to this process. Our adherence to privacy best practices is further demonstrated by our ISO 27001 and 27701 certifications. Privacy by design principles is embedded into our processes through workshops and guidelines, and we perform thorough due diligence with third-party vendors to ensure their commitment. The Data Privacy policy clearly outlines how Personal and Sensitive Personal Data is handled, with additional safeguards offered by our Data Loss Prevention (DLP) Policy. Please refer to LTIMindtree’ s Privacy Policy available at <https://www.ltimindtree.com/general-privacy-policy>.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty/action taken by regulatory authorities on safety of products/services.

LTIMindtree has established a structured Escalation Risk Review (ERR) framework to ensure timely attention at the right level and to ensure quick mitigation and corrective action. Critical and high-risk projects are given immediate attention, ensuring initiative-taking intervention by senior management.

This process operates at three levels:

- **Organizational Level:** Reviews are conducted on a fortnightly basis, led by the Chief Delivery Officers (CDOs). Weekly status updates are sent to CDO, CGO and Executive Committee members.
- **Unit Level:** Delivery and service line heads oversee weekly or fortnightly reviews to monitor and mitigate key risks.
- **Account Level:** Client and Delivery Partners manage risk assessments, with the review frequency based on specific project requirements.

Additionally, review calls, led by the Delivery Excellence head with DE Leadership, addresses critical high-risk matters. During CDO ERRs, Client Partner, and Delivery Partners present “Go Green” plans to mitigate risks and ensure effective resolution.

7. Provide the following information relating to data breaches:

- a. **Number of instances of data breaches –**
Nil
- b. **Percentage of data breaches involving personally identifiable information of customers –**
0%
- c. **Impact, if any, of the data breaches –**
None

Leadership Indicators

1. **Channels/platforms where information on products and services of the entity can be accessed (provide web link, if available).**
You can learn more about our global technology solutions and consulting services from our website <https://www.ltimindtree.com/>
2. **Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.**
Not applicable, as LTIMindtree does not engage in product manufacturing or provide services that involve safety risks or potential misuse.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

LTIMindtree has established a Business Continuity Management System (BCMS) aligned with ISO 22301, ensuring clear internal and external communication during disruptions. Every customer relationship is underpinned by a business continuity plan, encompassing initiatives to manage possible disruptions and a communication strategy detailing what, who, and when information is cascaded to the stakeholders and client. A comprehensive communication procedure ensures that the messaging is consistent with customers, partners, the media, and other stakeholders.

The system comprises processes for receiving, responding to, and documenting stakeholder communications, including emergency responder coordination. LTIMindtree has an AI-powered operational risk monitoring tool combined with expert human analysis. It enables LTIMindtree to comprehend worldwide, regional, and local incidents, produce tailored alerts and advisories, and suggest effective de-risking and mitigation strategies, empowering our customers to stay ahead of potential disruptive events. The crisis management team provides timely updates to employees and clients, with remote working facilities in place to ensure continuity.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief.

This is not applicable to LTIMindtree, as we operate an IT services company providing global technology consulting and digital solutions within a business-to-business (B2B) framework.

Did your entity carry out any survey with regard to consumer satisfaction relating to the major products/services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

Yes. At LTIMindtree, client satisfaction is a key focus, supported by a structured survey mechanism and a transparent improvement plan. We collect feedback through multiple channels, including:

- LTIMindtree Client Satisfaction Survey (CSS): Conducted biannually through an online tool, this survey allows clients to assess our services across various categories. Feedback is collected at the project, account, engagement, or individual employee levels, with timely corrective actions implemented and communicated.
- Independent Third-party Survey: An annual Client Satisfaction Survey (CSAT) is conducted by an independent research firm, gathering feedback from clients at all levels, from CXOs to middle management. The survey includes personnel interviews and an online questionnaire, offering impartial insights into satisfaction, loyalty, advocacy, and business value.
- The CSAT survey serves as a critical tool to collect insights that help refine client experiences and achieve enhanced outcomes at LTIMindtree. It gathers feedback on aspects such as value for money, loyalty, advocacy, and satisfaction from various organizational levels of the client, ranging from middle management to the CXO level.

Independent Assurance Statement

To the Directors and Management
LTIMindtree Limited (LTIM),
Technology Tower 1, Gate No. 5, Saki Vihar Road, Powai,
Mumbai 400 072, Maharashtra, India

LTIMindtree Limited (hereafter 'LTIM') commissioned TUV India Private Limited (TUVI) to conduct independent external assurance of BRSR Core disclosures ([09 attributes as per Annexure I - Format of BRSR Core](#)) following the ([BRSR Core –Framework for assurance and ESG disclosures for value chain](#)) stipulated in SEBI [circular SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122, dated 12/07/2023 and Industry Standards on Reporting of BRSR Core, circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177, dated 20/12/2024](#)) with reasonable assurance in conjunction with limited assurance of the [Section A: General Disclosures, section B: Management and Process Disclosures](#) and [09 BRSR principles covering Essential and Leadership Indicators](#). LTIM developed Business Responsibility and Sustainability Report (hereinafter 'the BRSR') for the period April 01, 2024 to March 31, 2025. The BRSR is based on the National Guidelines on Responsible Business Conduct (NGRBC), [SEBI circular: SEBI/HO/CFD/CMD-2/P/CIR/2021/562, dated 10/05/2021](#) followed by the [notification number SEBI/LAD-NRO/GN/2023/131, dated 14/06/2023](#) pertaining to BRSR requirement. This assurance engagement was conducted in reference with BRSR, the terms of our engagement and ISAE 3000 (Revised) requirement.

Management's Responsibility

LTIM developed the BRSR's content pertaining to the [Section A and B, 09 BRSR principles covering Essential and Leadership Indicators](#) including the Core disclosures ([09 attributes as per Annexure I - Format of BRSR Core](#)). LTIM management is responsible for carrying out the collection, analysis, and disclosure of the information presented in the BRSR (web-based and print), including website maintenance, integrity, and for ensuring its quality and accuracy in reference with the applied criteria stated in the BRSR, such that it's free of intended or unintended material misstatements. LTIM will be responsible for archiving and reproducing the disclosed data to the stakeholders and regulators upon request.

Scope and Boundary

The scope of work includes the assurance of the following [Section A and B, 09 BRSR principles covering Essential and Leadership Indicators](#) and [09 attributes as per Annexure I - Format of BRSR Core](#) disclosed in the BRSR report. The BRSR core requirements encompass essential disclosures pertaining to organization's Environmental, Social and Governance (ESG). In particular, the assurance engagement included the following:

1. Review of General Disclosure, Management & Process and the disclosures against all 09 BRSR principles submitted by LTIM;
2. Review of [09 attributes as per Annexure I - Format of BRSR Core](#) submitted by LTIM,
3. Review of the quality of information,
4. Review of evidence (on a random samples) for limited assurance of [Section A and B, 09 BRSR principles covering Essential and Leadership Indicators](#) and reasonable assurance of [09 attributes as per Annexure I - Format of BRSR Core](#).

Energy: For all offices, in absence of monitoring of actual vehicular fuel consumption (i.e., Petrol/Diesel/CNG) data attributable to owned & leased vehicle for employees & upstream vendor transportation, the GHG emissions are estimated by calculating the fuel consumption in liters using the formula, (Distance Travelled in KM) / Fuel efficiency of the vehicle)

Water consumption: For offices such as LTIM (Warangal) & LTIM (Indore), the CGWA estimate of 45 lit/person/day multiplied by the number of working days is applied to report water withdrawal and for offices such as LTIM Raheja (Hyderabad), LTIM LCC (Hyderabad), LTIM ICC (Pune), LTIM Qubix (Pune), LTIM Embassy (Pune), LTIM Kharadi (Pune), LTIM Adventz (Kolkata), LTIM Merlin (Kolkata), LTIM DLF2 (Kolkata), LTIM (Noida), the water consumption is estimated on Sq.ft. basis i.e., using formula, ((Built up area of LTIM office in Sq.ft. .) X (Total Third-Party Water Withdrawal from Municipal for entire building or campus)) / (Built up area of entire building or campus in Sq.ft. .)

Rainwater harvesting: For office such as LTIM Global City P1, P2 & P5 (Bangalore), the Surface Water withdrawal or Consumption from Rainwater harvesting in kL is estimated using the formula, ((Sump final Level in % - Sump initial level in %) X Sump Capacity in KL).

Waste: The data of total waste recovered through recycling, re-using or other recovery operations or total waste disposed by nature of disposal method could be assessed based on interviews and sample records as presented during the onsite visit.

The reporting boundaries includes 01 Corporate Office and 27 offices (*Additionally 3 offices i.e., LTIM-Manyata of Bangalore, LTIM-Divyasree Orion of Hyderabad and LTIM-Hinjewadi of Pune are excluded from boundary due to partial operations/offices got closed during the reporting year). Limitations

TUVI did not perform any assurance procedures on the prospective information disclosed in the Report, including targets, expectations, and ambitions. Consequently, TUVI draws no conclusion on the prospective information. During the assurance process, TUVI did not come across any limitation to the agreed scope of the assurance engagement. TUVI did not verify any ESG goals and claim through this assignment. TUVI verified data on a sample basis; the responsibility for the authenticity of data entirely lies with LTIM. Any dependence of person or third party may place on the BRSR Report is entirely at its own risk. TUVI has taken reference of the financial figures from the audited financial reports. LTIM will be responsible for the appropriate application of the financial data. The application of this assurance statement is limited w.r.t [SEBI circular SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122, dated Jul 12, 2023 and Industry Standards on Reporting of BRSR Core, circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177, dated 20/12/2024](#). This assurance statement does not endorse any environmental and social claims (related to the product, manufacturing process, packaging, disposal of product etc.) as well as advertisements by the reporting organization. TUVI does not permit use of this statement for Greenwashing or misleading claims. The reporting Organization is responsible for ensuring adherence to relevant laws.

Our Responsibility

TUVI's responsibility in relation to this engagement is to perform a limited level of BRSR assurance for [Section A and B, 09 BRSR principles covering Essential and Leadership Indicators](#) and reasonable level of assurance for [09 attributes as per Annexure I - Format of BRSR Core](#) and to express a

conclusion based on the work performed. Our engagement did not include an assessment of the adequacy or the effectiveness of LTIM's strategy, management of ESG-related issues or the sufficiency of the Report against BRSR reporting principles, other than those mentioned in the scope of the assurance. TUVI's responsibility regarding this verification is in reference to the agreed scope of work, which includes assurance of non-financial quantitative and qualitative information disclosed by LTIM. Reporting Organization is responsible for archiving the related data for a reasonable time period. The intended users of this assurance statement are the management of 'LTIM'. The data is verified on a sample basis, the responsibility for the authenticity of data lies with the reporting organization. TUVI expressly disclaims any liability or co-responsibility 1) for any decision a person or entity would make based on this assurance statement and 2) for any damages in case of erroneous data is reported. This assurance engagement is based on the assumption that the data and information provided to TUVI by LTIM are complete and true.

Verification Methodology

During the assurance engagement, TUVI adopted a risk-based approach, focusing on verification efforts with respect to disclosures. TUVI has verified the disclosures and assessed the robustness of the underlying data management system, information flows, and controls. In doing so:

- TUVI examined and reviewed the documents, data, and other information made available by LTIM for non-financial [Section A and B, 09 BRSR principles covering Essential and Leadership Indicators](#) and [09 attributes as per Annexure I - Format of BRSR Core](#) (non-financial disclosures)
- TUVI conducted interviews with key representatives, including data owners and decision-makers from different functions of LTIM
- TUVI performed sample-based reviews of the mechanisms for implementing the sustainability-related policies and data management (qualitative and qualitative)
- TUVI reviewed the adherence to reporting requirements of "BRSR"

Opportunities for Improvement

The following are the opportunities for improvement reported to LTIM. However, they are generally consistent with LTIM management's objectives and programs. LTIM already identified below topics and Assurance team endorse the same to achieve the Sustainable Goals of organization.

- LTIM can develop the SOP for reporting the 09 core attributes,
- LTIM may strengthen its internal reporting by opting a smart cloud-based data management system and compliment the same with periodic internal data and performance reviews,
- LTIM may encourage to monitor the chain of custody for suppliers who are not directly recycling the non-hazardous waste,
- LTIM may plan to monitor all categories of indirect GHG emissions as per ISO 14064-1,
- LTIM can utilize the best practices/ requirements of ISO 20400 to develop its sustainable procurement policy,
- LTIM may Bifurcate direct & indirect community impacts to monitor & may evaluate SROI of its CSR projects,
- LTIM may develop a formal COI Evaluation Matrix and detailed procedural steps for handling disclosed conflicts,
- Currently, Board oversight of ESG matters (currently emphasis is on CSR activities) is primarily conducted through quarterly reviews. More frequent Board engagement could strengthen ESG integration into strategic decision-making,
- The number of males and females involved in the live safety drills can be further increased and the population of employees can be monitored based on actual involvement of male and female employees.

Conflict of Interest

In the context of BRSR requirements set by SEBI, addressing conflict of interest is crucial to maintain high integrity and independence of assurance engagements. As per SEBI guidelines, assurance providers need to disclose any potential conflict of interest that could compromise the independence or neutrality of their assessments. TUVI diligently identifies any relationships, affiliations, or financial interests that could potentially cause conflict of interest. We proactively implement measures to mitigate or manage these conflicts, ensuring independence and impartiality in our assurance engagements. We provide clear and transparent disclosures about any identified conflicts of interest in our assurance statement. We recognize that failure to address conflict of interest adequately could undermine the credibility of the assurance process and the reliability of the reported information. Therefore, we strictly adhere to SEBI guidelines and take necessary measures to avoid, disclose, or mitigate conflicts of interest effectively.

Our Conclusion

In our opinion, based on the scope of this assurance engagement, the disclosures on BRSR Core KPI described in the BRSR report along with the referenced information provides a fair representation of the 9 attributes, and meets the general content and quality requirements of the BRSR. TUVI confirms its competency to conduct the assurance engagement for the BRSR as per SEBI guidelines. Our team possesses expertise in ESG verification, assurance methodologies, and regulatory frameworks. We ensure independence, employ robust methodologies, and maintain continuous improvement to deliver reliable assessments.

Disclosures: TUVI is of the opinion that the reported disclosures generally meet the BRSR requirements. LTIM refers to general disclosure to report contextual information about LTIM, while the Management & Process disclosures the management approach for each indicator [Section A and B, 09 BRSR principles covering Essential and Leadership Indicators](#) as well as [09 attributes as per Annexure I - Format of BRSR Core](#).

Limited Assurance Conclusion: Based on the procedures we have performed; nothing has come to our attention that causes us to believe that the information subject to the limited assurance engagement was not prepared in all material respects. TUVI found the information to be reliable in all principles, with regards to the reporting criteria of the BRSR.

Reasonable Assurance: As per SEBI reasonable assurance requirements including scope of Assurance, Assurance methodologies (risk- based approach and data validation techniques), mitigating conflicts of interests, documentation on evidence and communication on findings, TUVI can effectively validate the accuracy and reliability of the information presented in the BRSR, instilling confidence in stakeholders and promoting transparency and credibility in ESG reporting practices.

BRSR complies with the below requirements

- Governance, leadership and oversight: The messages of top management, the business model to promote inclusive growth and equitable development, action and strategies, focus on services, risk management, protection and restoration of environment, and priorities are disclosed appropriately.
- Connectivity of information: LTIM discloses [09 BRSR principles covering Essential and Leadership Indicators](#) and [09 attributes as per Annexure I - Format of BRSR Core](#) and their inter-relatedness and dependencies with factors that affect the organization's ability to create value over time.
- Stakeholder responsiveness: The Report covers mechanisms of communication with key stakeholders to identify major concerns to derive and prioritize the short, medium and long-term strategies. The Report provides insights into the organization's relationships (nature and quality) with its key stakeholders. In addition, the Report provides a fair representation of the extent to which the organization understands, takes into account and responds to the legitimate needs and interests of key stakeholders.
- Materiality: The material issues within 9 attributes and corresponding KPI as per BRSR requirement are reported properly.
- Conciseness: The Report reproduces the requisite information and communicates clear information in as few words as possible. The disclosures are expressed briefly and to the point sentences, graphs, pictorial, tabular representation is applied. At the same time, due care is taken to maintain continuity of information flow in the BRSR.
- Reliability and completeness: LTIM has established internal data aggregation and evaluation systems to derive the performance. LTIM confirms that, all data provided to TUVI, has been passed through QA/QC function. The majority of the data and information was verified by TUVI's assurance team (on sample basis) during the BRSR verification and found to be fairly accurate. All data, is reported transparently, in a neutral tone and without material error.
- Consistency and comparability: The information presented in the BRSR is on yearly basis. and found reliable and complete manner. Thus, the principle of consistency and comparability is established.

Independence and Code of Conduct: TUVI follows IESBA (International Ethics Standards Board for Accountants) Code which, adopts a threats and safeguards approach to independence. We recognize the importance of maintaining independence in our engagements and actively manage threats such as self-interest, self-review, advocacy, and familiarity. The assessment team was safeguarded from any type of intimidation. By adhering to these principles, we uphold the trust and confidence of our clients and stakeholders. In line with the requirements of the SEBI [circular SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122, dated 12/07/2023 and Industry Standards on Reporting of BRSR Core, circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177, dated 20/12/2024](#).

TUVI solely focuses on delivering verification and assurance services and does not engage in the sale of service or the provision of any non-audit/non-assurance services, including consulting.

Quality control: The assurance team complies with quality control standards, ensuring that the engagement partner possesses requisite expertise and the assigned team collectively has the necessary competence to perform engagements in reference with standards and regulations. Assurance team follows the fundamental principles of integrity, objectivity, professional competence, due care, confidentiality and professional behaviour. In accordance with International Standard on Quality Control, TUVI maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our Assurance Team and Independence

TUVI is an independent, neutral third-party providing ESG Assurance services with qualified environmental and social specialists. TUVI states its independence and impartiality and confirms that there is "no conflict of interest" with regard to this assurance engagement. In the reporting year, TUVI did not work with LTIM on any engagement that could compromise the independence or impartiality of our findings, conclusions, and observations. TUVI was not involved in the preparation of any content or data included in the BRSR, with the exception of this assurance statement. TUVI maintains complete impartiality towards any individuals interviewed during the assurance engagement.
