# Outcreate Data Resiliency

Securing Enterprises for the Agentic Era

Rubrik Forward 2026

June 8–11

The Venetian Expo, Las Vegas

# From Reactive Backup to Proactive Resilience

AI-led attacks can now be executed in under 30 seconds, while recovery can take weeks, creating a critical imbalance. At Rubrik Forward 2026, LTM will show how its partnership with Rubrik transforms data protection into an active line of defense. By combining Rubrik's Zero Trust Data Security with LTM's global delivery expertise, we deliver a resilient framework that protects data and enables rapid, clean recovery after sophisticated attacks.

## A Partnership Built for Scale

As one of Rubrik's certified Global Systems Integrators, LTM brings an operator's perspective to data resiliency. From initial architecture through migration and 24x7 managed operations, our teams have hardened and optimized Rubrik deployments across complex hybrid estates spanning on-premises data centers, hyperscale clouds, and SaaS platforms. This end-to-end capability means enterprises gain a single accountable partner for their entire resiliency journey.

**With LTM  
and Rubrik,  
enterprises can:**

Build layered defenses against ransomware and insider threats

Orchestrate rapid, confident recovery across every environment

Establish real-time visibility into data risk and compliance posture

Shift from manual governance to automated, policy-driven protection

# What We Bring to Rubrik Forward 2026

## Zero Trust Architecture, and Managed Operations

We design, deploy, and run Rubrik environments end-to-end with Cyber resiliency from Day 1, continuously optimizing them through proactive monitoring, patching, and threat-informed tuning. Think of it as a fully managed security perimeter around your backup estate.

## Cyber Recovery Playbooks

Pre-built, rehearsed recovery runbooks that turn a ransomware event from chaos into a controlled response. Our playbooks ensure the right data is restored to the right systems in the right sequence every time.

## Regulatory Compliance Automation

Automated evidence collection, classification, and reporting aligned to GDPR, HIPAA, PCI DSS, ISO 27001, and NIS2. Our Data Sovereignty framework builds on Rubrik's native capabilities to address cross-border data requirements.

## Unified Multi-Cloud Protection

One policy engine. Every cloud. We architect Rubrik-native protection that spans AWS, Azure, GCP, and Microsoft 365, eliminating siloed tools and giving security teams a single pane of glass for enterprise-wide data risk.

## Resilience-as-a-Service

A fully managed, outcome-based engagement where LTM owns the resiliency outcome backup health, recovery testing, threat monitoring, and monthly resilience scorecards, all delivered with contractual SLAs.

## Explore at the Event

### Identity Recovery

Rapid restoration of Active Directory, Entra ID, and identity infrastructure closes the persistence gap that attackers exploit after initial compromise.

### Agentic Cloud

Intelligent, AI-driven automation that continuously adapts protection policies, surfaces anomalies, and accelerates response without human bottlenecks.

### Data Resiliency

A converged platform for backup, recovery, and long-term data protection across hybrid and multi-cloud estates engineered for always-on availability.

### Cyber Recovery

Purpose-built recovery frameworks that isolate clean data, validate integrity, and orchestrate restoration at speed, minimizing business impact when attacks land.

## Meet us at Rubrik Forward

Learn how AI is reshaping both attack techniques and defensive recovery

Stress-test your cyber recovery strategy with our simulation experts

Discuss your specific environment with LTM's Rubrik-certified architects

## Join our Session

LTM experts will present a demo on building agentic cyber resilience covering the intersection of AI, identity security, and automated recovery in enterprise environments.

## It's time to Outcreate

**LTM** is a global technology services and consulting company and the Business Creativity partner to the world's largest and most disruptive companies. We bring human insights and intelligent systems together to help enterprises across industries rewire their business models, accelerate innovation, and drive AI-centric growth. With our integrated operations, transformation, and business AI services, we design and deliver solutions that create new productivity paradigms and new roads to value. Together with 87,000 employees across 40 countries and our global network of hyperscaler partners, LTM — A Larsen & Toubro company — owns business outcomes for over 700 clients, helping them to not simply outperform the market, but to Outcreate it.
