LTIMindtree

Oracle Cloud ERP Implementation for a Medical Device Manufacturing Company Reduced the TOC by 30%, Improving Process Turnaround Time by 25%

About the client

The client is a global leader in applied molecular biology diagnostics and serves several Fortune 500 companies across more than 100 countries. Their solutions and services deliver accurate and actionable feedback in bioprocessing, biofouling, and biosecurity applications.

Business challenges

The client used multiple instances of MPC Sage 50, Salesforce and other distributed IT, and legacy systems.

Most of the critical processes and data were captured in SharePoint and Excel spreadsheets manually.

The availability of business SMEs and IT teams was limited due to lean organization.

A compliant solution across global industry benchmarks was needed.

LTIMindtree solution

> Leveraged Oracle CloudVision Methodology to implement Oracle Fusion Cloud across end-to-end processes – manufacturing, finance, and supply chain.

> Tool-driven accelerated execution for each major implementation activity – assessment, configuration, data migration, testing, training, and cutover.

> Utilized LTIMindtree's Oracle Cloud CoE instance for multiple show-and-tell sessions, playbacks, and to-be design validations to ensure stakeholder buy-in and higher user adoption.

> Innovative product solutions to improve and automate business processes in various areas like intercompany trade flows, pricing and costing, taxation, expenses, quality cycles, repair depot, etc. and bring robust controls.

> Big Bang go-live across four legal entities (Canada, US, UK, Europe) with multi-currency complexities (USD, CAD, GBP, Euro).

> Accelerated testing with reusable test cases, test scripts, and orchestration tools.

> Access to LTIMindtree's training library, videos, and repository throughout the project period to ensure faster delivery.

A **40%** reduction in data migration efforts

A **30%** reduction in the total cost of ownership

Business benefits

A **25%** improvement in the process turn-around time

A **60%** cost optimization by leveraging the 10:90 onsite-offshore delivery model

Technology solutions

Oracle ERP Cloud Finance

Oracle ERP Cloud Procurement

Oracle Supply Chain Cloud

Oracle Planning Cloud

Oracle Maintenance & Quality Cloud

Oracle PaaS OIC, IDCS, VBCS, PCS

LTIMindtree

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world.
