

LTM Wins Golden Peacock Award for Excellence in AI

Mumbai, India- May 15, 2026: [LTM](#), the Business Creativity partner to the world's largest enterprises, has won the Golden Peacock Award for Excellence in Artificial Intelligence (GPAEAI) 2026, conferred by the Institute of Directors (IoD), India. The award recognises LTM's sustained leadership in enterprise-scale, responsible and impact-driven AI adoption.

The 'Excellence in AI' category was introduced as part of the Golden Peacock Awards in 2026, with winners in this category being recognised for the first time. This category benchmarks strategic alignment, resource optimization, and operational reliability ensuring AI initiatives are closely aligned to business goals. It rewards organizations that adopt robust, unbiased, and accurate AI systems linked to business objectives and encourages responsible innovation with a focus on ethical, sustainable outcomes.

LTM was selected following a highly competitive evaluation process that saw over 511 applications, of which 206 organisations were shortlisted after a rigorous three-tier assessment. Only a select group of the highest-performing organisations were declared winners. The evaluation and jury process was conducted under the chairmanship of Hon'ble Justice Uday U. Lalit, Former Chief Justice of India.

The award acknowledges LTM's comprehensive AI framework anchored in BlueVerse™, its enterprise AI ecosystem that enables organisations to move from pilot-led experimentation to production-grade AI deployment at scale. LTM's AI programmes have delivered measurable outcomes across internal operations and client engagements, supported by strong governance, ethical safeguards, and regulatory alignment.

"This recognition underscores our focus on taking AI beyond experimentation to responsible, enterprise-scale deployment that delivers measurable business value. The Award for Excellence in AI category validates the strength of our BlueVerse-led approach, grounded in governance, ethics, and outcomes that matter to our clients," said **Krishnan Iyer, Chief Growth Officer, LTM**.

"A new era has begun with AI, and by winning the prestigious Golden Peacock Award for Excellence in Artificial Intelligence, LTM Limited has demonstrated its leadership in advancing AI-driven, cloud-native, and data-first IT services and solutions. My heartfelt congratulations to LTM Limited and its team. We are delighted to see how the company has developed several proprietary platforms, backed by over 30 patents, offering an enterprise-wide approach to AI and reaffirming its commitment to building trusted and sustainable AI systems," said **Manoj K. Raut, Chief Executive Officer and Secretary-General, Institute of Directors (IOD), India**.

The Golden Peacock Awards are among India's most respected corporate honours, recognising excellence across artificial intelligence, innovation, quality, business excellence, and training. The awards follow an independent and transparent assessment framework, benchmarking organisations against world-class standards.
