LTM BlueVerse™ SovereignSphere Models

—

Your Context. Your Model. Your Advantage.

The Next Frontier of Enterprise AI

Foundation models are becoming increasingly accessible. Competitive advantage is not.

BlueVerse SovereignSphere Models help organizations Outcreate generic AI by transforming enterprise knowledge, policies, and expertise into a native capability of the model. Rather than repeatedly supplying context at runtime, they make context a permanent part of the model itself. The result is AI that understands your business, not just your data.

The Opportunity

Most organizations are building AI on shared foundation models.

Tomorrow's leaders will build AI around what competitors cannot replicate: their knowledge, expertise, and operating context.

BlueVerse SovereignSphere Models turns enterprise knowledge into a strategic asset, creating AI systems that are more aligned, accurate, and representative of how the business operates.

Purpose-built Models in Action

Sales and Marketing Pro

Domain: Sales and Marketing Product

Type: Open Weight Model

Business Focus: Solution design, code generation, troubleshooting, and root cause analysis

Contract Pro

Domain: Contract Intelligence

Type: Open Weight Model

Business Focus: Contract analysis, obligation tracking, and compliance validation

FinCast

Domain: Financial Services and Finance

Type: Open Weight Model

Business Focus: Context-aware financial analysis and decision support

How We Outcreate Business Value

Domain-grade Intelligence

Small Language Models that understand your terminology, policies, processes, and decision frameworks

Proprietary AI Advantage

Transform enterprise expertise into differentiated AI capabilities that competitors cannot easily replicate

Sovereign AI

Maintain control over models, data, and intellectual property while aligning with enterprise governance requirements

Sustainable Economics

Reduce the operational overhead of repeatedly retrieving and processing context

Outcreate Enterprise AI

Organizations benefit from:

Near-frontier performance — Within ~0.6 pts of frontier-model quality for specialized workloads.

~100× lower cost — Deliver high-volume, domain-specific AI at ~1/100th the cost of frontier models.

Higher accuracy, fewer hallucinations — Domain-tuned intelligence delivers more relevant and consistent outcomes.

Sovereign by design — 100% enterprise-controlled data residency, governance and AI workloads.

Hybrid intelligence — Combine SovereignSphere Models with frontier models to optimize quality, cost and performance.

Enterprise-owned AI — Build differentiated intelligence around proprietary data, workflows and domain knowledge.

Continuous optimization — Fine-tuning, preference optimization and periodic re-evaluation keep models improving.

Built for scale — Sequence optimization can enable ~5× faster model retraining, accelerating enterprise AI iteration.

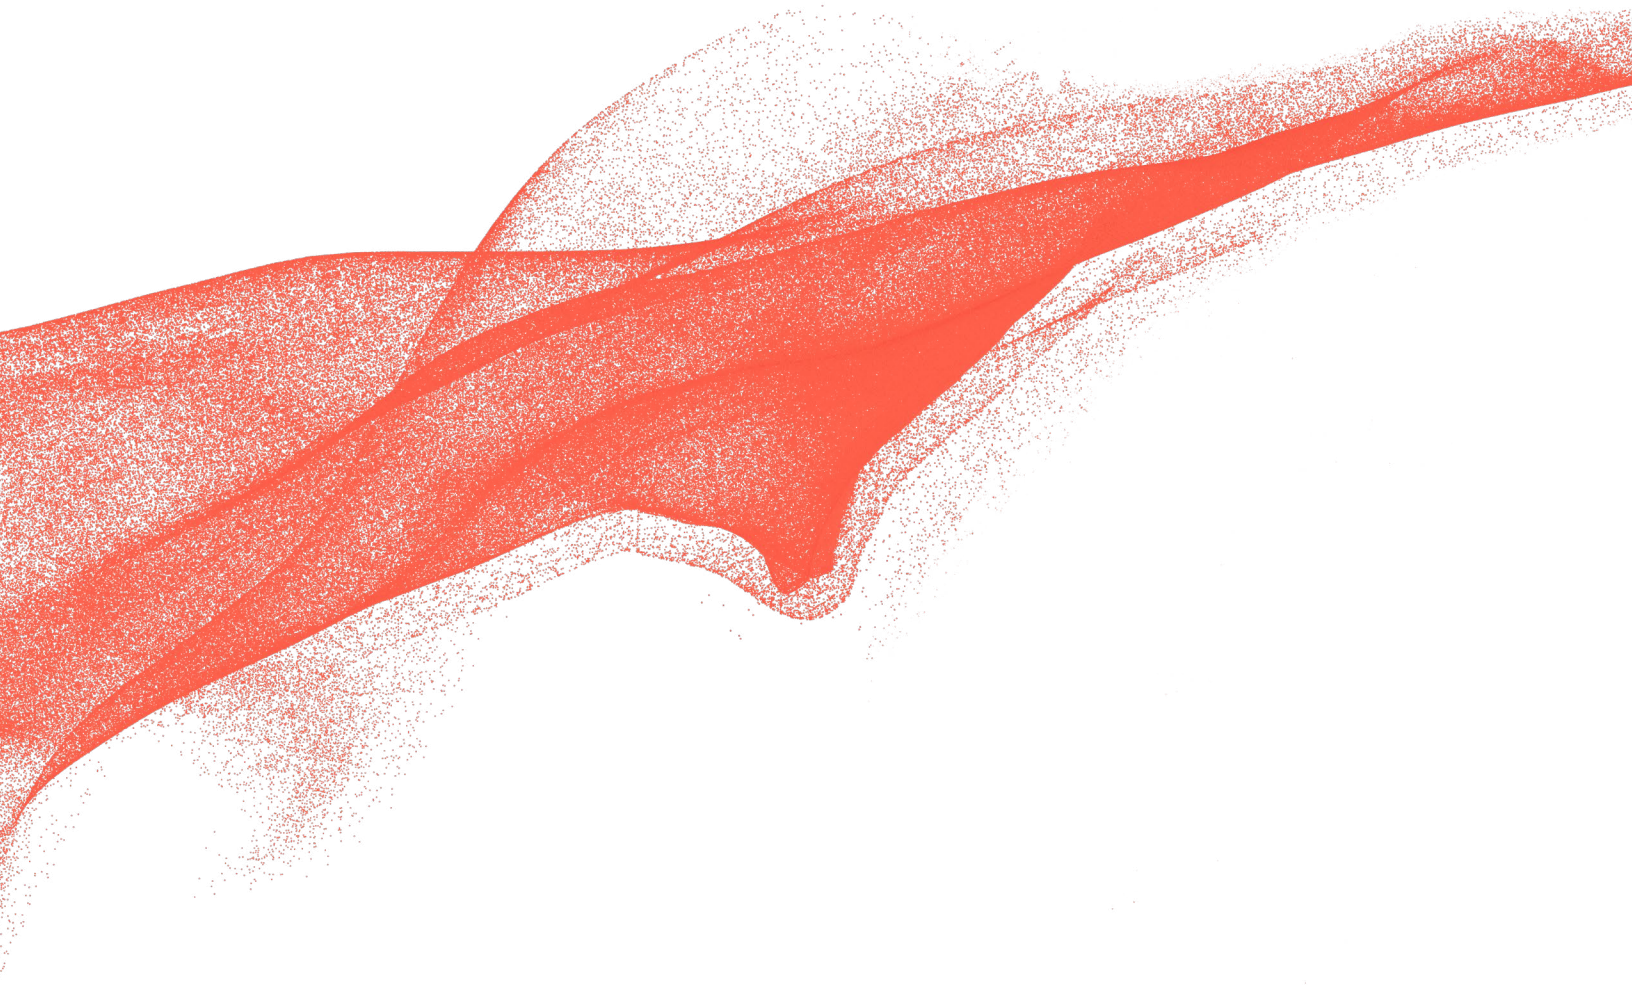

Why LTM

As a Business Creativity partner, LTM helps organizations move beyond AI adoption to AI differentiation. Through BlueVerse SovereignSphere Models, we combine enterprise knowledge with intelligent systems to build trusted, scalable, and business-aligned AI that creates lasting competitive advantage.

The Future of AI Is Context-native

Foundation models will become increasingly accessible. Your enterprise knowledge will not. BlueVerse SovereignSphere Models transform that knowledge into a lasting AI advantage.

Your Context. Your Model. Your Advantage.

LTM — a Larsen & Toubro Group Company — is an AI-centric global technology services company and the Business Creativity partner to the world's largest enterprises.

We bring human insights and intelligent systems together to help clients create greater value at the intersection of technology and domain expertise. Our capabilities span integrated operations, transformation, and business AI — enabling new ways of working, new productivity paradigms, and new roads to value. Together with over 87,000 employees across 40 countries and our global network of partners, LTM owns outcomes for our clients, helping them not just outperform the market, but Outcreate it.
